Ltd. Lifetime Warranty!  
(Platinum Series)

## Multi-Level, Split-Grid Cooking System

Two Temperature Zones  
High-Temp Grilling  
and/or Roasting

# Grill • Smoker • Pizza Oven

## A Quantum Leap in barbecue flavor and performance

Saffire has combined the ancient ceramic cooker with modern technology and innovation.

The thick ceramic walls provide an efficiency that produces many advantages over a metal grill or smoker. And with the natural flavor and easy starting of lump charcoal you'll be cooking more delicious barbecue than you can imagine!

**Grilling** - up to 1000 degrees for quick searing.

**Smoking** - Holds low temperatures for hours for true slow-smoked barbecue.

**Wood-fired Pizza Oven** - The ceramic dome reflects the heat and cooks like a brick oven.

## Why Saffire?

There are far too many extra qualities, features and benefits in the Saffire line to mention here. These are a few of the high points:

- Leading industry innovator for 10 Years.
